

How to Choose the Best Web Hosting Provider

Here is a handy checklist of important things you should consider about, while choosing a hosting provider for your site. When choosing a host, keep in mind following key elements:

- Look for a minimum uptime of 99.5% or higher + Money back guarantee.
- How much traffic the package allows and is there an additional cost over the allowed bandwidth?
- How much storage are you allocated and is that storage is enough for your needs?
- Does your host provide 24/7 technical support via email, phone or live chat?
- Does it allow you to set up SSL (a secure server); in case if you're planning to sell anything through your site?
- Does it provide a fully-functional Control Panel according to your business needs?
- How many domains and sub domains can you host in your account?
- Does it provide Email, Auto responders, POP3, Mail Forwarding facility?
- How much the selected package cost?
- Does your web host provide all types of payment plans (monthly/quarterly/annual)?
- Is there a trial period?
- If required, upgrades are available or not?
- Check out the Other's reviews, so you could know what others think about the web host you're going to choose?
- Does it provide extensive technical support related to Database?
- Does it support WordPress script and provide simple one-click installation?
- How frequently does your hosting company back up the information on its servers?
